

Pyramid Learning Hub

Become a Pyramid Power-User with our Self-Guided Training Materials

We know there is nearly endless information in your data, waiting to be uncovered with Pyramid. We want you to get the most from the platform and all its powerful capabilities. That's why we've built the Learning Hub—it's your one-stop to help you develop your Pyramid skills with eLearning and expert-led courses.

eLearning

Our self-paced eLearning content is designed in bite-sized chunks and organized thematically so users can quickly access the topics they are most interested in. Users can also progress through functional courses in chronological order for a comprehensive study of all the functionality of a particular Pyramid module. Specific use cases have also been crafted to address the challenges each user faces. Each eLearning course includes a basic assessment which will count towards more advanced certification options.

Expert Sessions

In addition to eLearning courses, a range of expert-led training sessions are also available for free from the events page calendar. These 1-hour sessions provide the opportunity to ask a Pyramid expert questions and address your own specific needs. Seats are limited so it is important to book your place to attend. And, while these sessions are regularly scheduled, you can also watch recordings of previous sessions to catch up on anything you missed.

“The Pyramid Learning Hub gives all users from business through to BI developers a single place where they can find all learning resources to drive adoption, boost engagement and productivity using the Pyramid Decision Intelligence Platform.

The eLearning content is simple to use. I like the way you can download the training content and practice. Also, it's easy to register for instructor-led sessions and connect with Pyramid experts.”

- Jan Steenkamp, Senior Department Manager of BI Projects, TFG

Getting Started

Subscription-Based

Access to the Learning Hub is subscription-based. For more information on how to get started, contact your Pyramid customer support team to learn how to register.

Industry Resources

On top of our platform-specific content, you will also enjoy access to other Pyramid resources directly from the Learning Hub, including blog articles, analyst reports, topical white papers, tips & techniques videos, user guides, technical documentation, and more.

Regular Updates

The Learning Hub content is updated on a regular basis with new eLearning content, use cases, and expert sessions covering new features. Pyramid Certification options will enable both Pyramid customers and partners to gain official Pyramid qualifications in different capacities.

Be sure to check out the Learning Hub for:

- A comprehensive Learning Path guide to advise you on which courses to take based on role and area of expertise
- Core modules like Model, Discover, Present, Publish and Formulate
- Specialist topics like Content Management and Administration
- Bespoke use cases designed by user profile (i.e., role and industry)
- Viewer-centric courses focusing on dashboard navigation, self-service, and more
- Instructor-led virtual training events
- Download the training content to your own Pyramid environment to further develop your Pyramid skills
